## Information for Parents and Carers

Dear Parent/Carer

### Joining Google Classrooms

In the event of your child being absent from school due to illness, self-isolation or future potential closure, they can access their work online through Google Classroom.

### What is Google Classroom?

Google Classroom is a free and secure learning network for teachers, pupils and schools. It provides a safe way for us to connect, share content, access homework, participate in live lessons and receive class information.

Using Google Classroom allows you and your child to have access to class work at any time through the Internet and is accessible online and through any mobile devices with Internet capabilities—including iPhone, iPad and Android devices.

Your child has had the opportunity to login to their Google Classroom as part of their IT Curriculum. Staff have invited your child to their Google Classrooms and **we need you to ensure they have joined all Classes as per their timetable by completing the following:**

## Guidance for Pupils When Accessing Live Lessons

1. Ensure you are in a suitable (quiet and free from distractions) area before your lesson begins.
2. Make sure you have any equipment you may need for the lesson.
3. Be ready for the lesson 5 minutes before it starts.
4. Cameras should remain off and microphones on mute unless your teacher asks you a question or you have a question.
5. Behave as if you were in a classroom. Lessons will be recorded.
6. You should use your school email or the stream (if being used by your teacher) in Google Classroom to communicate with your teacher and other members of staff.
7. Conversations and emails with staff must be appropriate.
8. You should only use your school IT account for activities connected with school.
